CUSTOM INSTALLATIONS

With over 20 factory-owned service centers across North America, McNeilus has a location near you with the experience and infrastructure to integrate a fuel system for your application.

- Certified CNG technicians and field engineers
- Installations meet or exceed NFPA-52 Standards
- Over 4,000 systems installed
- Many systems in stock and ready for installation
- Delivering quality and customer satisfaction for over 40 years

COMPREHENSIVE INSPECTION SERVICES

A vital part of ensuring the safety of your Natural Gas Vehicle, is maintaining the integrity of your CNG system.

The National Highway Traffic Safety Administration (NHTSA) FMVSS 304 requires all on-board CNG fuel systems and cylinders to be visually inspected after a motor vehicle accident or fire and at least every 36 months or 36,000 miles, whichever comes first, for leaks, damage and deterioration.

McNeilus offers a full range of inspection services to keep your CNG-powered vehicles in compliance.

**Services Include:**

- NFPA-52 Compliance Review
- Cylinder Inspection
- System Leak Detection
- Document Retention
- Technicians Certified by CSA Group

NATIONAL PARTS AND SERVICE SUPPORT NETWORK

Industry experts, extensive parts inventories and dozens of trained technicians at our factory-owned service centers nationwide.

- Customer education on industry standards and best practices
- Knowledgeable customer support representatives
- Extensive CNG parts inventory
- On-site problem solving, diagnostics and repair
